ABOUT ME

- Dynamic problem solver and innovator with a passion for Excellence and Learning.

EDUCATION

- Blessed Assurance Academy :** (2007 - 2015)
- Kongoni Primary School :** (2016 - 2017)
- Mavoko Boys High School :** (2018 - 2021)
- Moringa School :** (Feb 2023 - November 2023)
Software Engineering bootcamp.

I enrolled for a bootcamp in Moringa and acquired hands on and practical skills that will help in creating and developing outstanding Websites and Web Applications.

ACHIEVEMENTS

- Book Bloom** - this is an online library that allows users to view and purchase a book online.
- SpeedySend** - this is an online delivery application that allows users to buy goods from their favourite shops and get delivered.
- Community Crafters** - this is an online market where a user can find and book service providers for example plumbers, mechanics, etc.

SKILLS

- Programming languages : JavaScript, Python
- Web Development : HTML, CSS, TailwindCSS and Flask
- Front-end frameworks : React
- Back-end frameworks : Python
- Database : SQL, MySQL and PostgreSQL
- Team Collaboration
- Problem Solving

EXPERIENCE

■ Freelancing : (Februrary 2023 - present)

I have been freelancing even before i finished college.

I have developed robust systems, web applications and a few other projects for various companies.

I have also personally developed unique applications and systems so as to improve my programming and coding skills.

■ The Artvista KE (February 2024 - present)

The ArtVista KE is a online startup I work on part-time with a team of three that helps artists to reach their potential clients and vice versa.

I was responsible for frontend development using ReactJS and TailwindCSS. I implemented frontend authentication, styling, carousel and fetching of data.

The link to The Atrvista is : theartvista.com

■ CommunityCrafters Marketplace

This is an online service marketplace that I have developed from scratch.

The web application links service providers ie, plumbers and electricians to customers who need their services. I have developed features like : user authentication based on your role, booking of services, user CRUD operations including updating a service you have booked and updating your profile and admin CRUD operations for the bookings.

I have used various libraries, languages and frameworks like :

Frontend : ReactJS, TailwindCSS, JavaScript

Backend : Python, Flask

Database : PostgreSQL

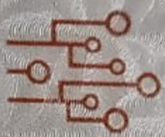

Testing : Postman

Link to the project is : communityc-backend.onrender.com

Other projects I have done for clients include :

mountsuswahikencamp.com

printermasters.co.ke - wordpress site (worked on a few features on the backend)

MORINGA

Discover · Grow · Transform

CERTIFICATE OF COMPLETION

PROUDLY PRESENTED TO:

Alex Maarithi

For successfully completing the **Software Engineering Course**
on **17th November 2023** at Moringa School.

The program covered both **Back-End** and **Front-End** Programming Technologies.

The course was delivered by Moringa School and included certain content from Flatiron School.

Fiona Kirui

Fiona Kirui

Interim CEO, Moringa School
